Tips

1. Print templates out onto cardstock paper.
2. Choose your desired shape and cut it out carefully with a craft knife that has a new, sharp blade. *Take caution as you cut, and always cut away from your body.* Use the negative space as a "viewfinder" to place on your desired paper to find the perfect place to cut. Place your cut out template on top of your paper, and cut out your chosen paper/ephemera.
3. Place your paper/ephemera into your bezel setting and use an appropriate resin to complete your piece!
