

Silver Loop Garden Ring

Tutorial

This lovely ring pairs one of our ring bases with lots of big dangles. It will make you smile and gets a lot of attention! The Swarovski crystals are subtle; butterflies and flowers hidden in the silver loops.

Step One

- Thread a head pin with one sterling ball and one crystal bead. Using your round nose pliers create a wrapped loop on the head pin. Repeat with remaining sterling balls, crystals and head pins. (The picture does have a sterling ball on the end of the head pin but the Swarovski crystal flowers are top drilled so you can't see the sterling ball very well from this angle, sorry!)

Step Two

- With your chain nose pliers gently open a jump ring and thread it through the loop on one of the crystal beads. Add a hammered ring and attach the jump ring to the ring base. Close jump ring securely. Repeat this with remaining looped crystals and hammered rings.

Materials needed:

- * one sterling plated 14 loop ring base
- * 14 sterling plated hammered hoops, 22 mm
- * 14 sterling plated jump rings, 7 mm
- * 14 sterling plated head pins, 1"
- * 14 sterling plated balls, 2 mm
- * 14 assorted Swarovski butterflies or flowers

Tools needed:

- * Chain nose pliers
- * Round nose pliers
